

## The **PROSHRED**® Post

We're Thankful for our Customers! • Prepare for winter with cold weather safety tips •  
Get to Know us in our Staff Spotlight!

### *Did You Know?*

### **We're Feeling Gratitude: not only this season, but always!**

**grat-i-tude** (/ˈgrædəˌt(y)o͞od/) - *noun* - the quality of being thankful; readiness to show appreciation for and to return kindness. (source: Oxford Languages via Google English dictionary)

While the season of gratitude is certainly upon us, we're thankful for your business and partnerships all year long! Thank you for choosing **PROSHRED**® Philadelphia to keep your sensitive and proprietary information safe and secure.

If you're grateful for us, too, for the security, service, & peace of mind we provide, we hope you'll **spread the love** this season and beyond, and refer us to your clients, partners, and friends!

### *The Punchlist*

### **Stay Prepared This Winter!**

The safety of our customers and employees is just as important to us as the security of your information! Keep your employees and families safe with a few helpful reminders this winter while traveling:

- **Fuel Up.** With winter driving comes unpredictable or dangerous cold weather, so keep your tank at least 1/2 full when you head out
- **Keep your phone charged, or carry a power bank charger.** In the event of an emergency, you'll need your phone! If you can, always ensure your phone is charged before heading out of town, or bring a charged power bank along for the ride.
- **Don't forget a blanket.** Cold weather can take a toll on your car's battery. If you find yourself waiting for a jump, you'll be grateful you remembered a blanket!
- **Download offline maps.** If you're going on a long trip, or to a remote or unfamiliar area, consider downloading offline maps onto your phone. If you drop cell service at any point, your navigation won't be affected. Learn how to do it [here](#).
- **Bring water.** It never hurts to have water along! However, with the potential of freezing temperatures, don't bring glass, or a totally full bottle, as they have the potential to break or burst.

## *Staff Spotlight*

### *Meet AJ!*

AJ is **PROSHRED**®'s Operations Supervisor, Jack-Of-All-Trades, and Go-To Guy.

While AJ has been with **PROSHRED**® for 6 years, we're not sure how we ever got along without him! AJ does everything from overseeing our Customer Service Professionals and optimizing routes to fixing faulty wiring and hanging photos. If we have a customer who needs service ASAP, AJ will make it happen! It's not uncommon to hear a chorus of "AJ! I need your help!" when he walks into a room.

AJ loves working at **PROSHRED**® because every day is a new adventure helping our customers, with no day ever the same. He loves the family atmosphere and the true team effort to be the best we can be.

When not solving problems and going above and beyond the call of duty, you can find him working his side hustle as a DJ (he's been doing it for over 25 years!). He also loves watching Eagles games in his basement man-cave, spending time with his wife and two children.
