Business Overview

Redishred Capital Corp. ("Redishred" or the "Company") was founded in 2006 with the purpose to acquire and grow a business platform in the information destruction and security industry. In 2008, Redishred acquired Professional Shredding Corporation and its primary assets, which included the Proshred system and brand, including 16 franchised locations.

The Company is headquartered in Mississauga, Ontario, Canada and operates the Proshred franchise and licence business (defined as the business of granting and managing franchises in the United States and by way of a master license arrangement in the Middle East). As at June 30, 2023, the Company operates 15 corporate locations directly, three of which also operate the Proscan branded imaging and scanning operations and one of which also operates an electronic waste services business under the Secure e-Cycle brand.

The Company's strategy to drive shareholder value focuses on three key areas:

1. Expand the location footprint in the U.S. by way of franchising and accretive acquisitions.
2. Maximize same location revenue (in particular, recurring scheduled services) and earnings for franchisees and corporate locations.
3. Drive depth of service and earnings in existing locations by acquiring smaller "tuck-in" acquisitions that are accretive.

In order to effectively and efficiently deliver services to its customers, the Company actively manages and maintains, as at June 30, 2023, a truck fleet comprised of **149 trucks**, with an average age of six (6) years. The Company aims to maintain a truck fleet that is, on average, five (5) to six (6) years old. The Company will deploy capital to acquire new trucks and/or to replace older trucks to support growth requirements in each of the Company's markets.

MANAGEMENT'S DISCUSSION AND ANALYSIS**

June 30, 2023

Dollar amounts in thousands of Canadian dollars (except as noted)

In the second quarter of 2023, we saved ~ 238,000 trees through our paper recycling services⁽¹⁾.

We also strive to optimize the routes we use in providing shredding services to our clients and maintain our shredding vehicles in optimal condition to reduce our carbon footprint. As we look into the future, we will look to operate newer and more fuel-efficient vehicles and we are also exploring the use of shredding vehicles that run on alternative energy sources.

(1) The estimated amount of paper that can be produced from a tree has been conservatively estimated by management based on information taken from Conservatree.org.

Values

Operating with integrity, being open and transparent in our communications, creating awareness, holding ourselves accountable, respecting others, and growing, financially and as a business organization, represent our core values.

These core values extend beyond just providing and delivering our core services to customers. We are also involved in our communities and create awareness of issues that impact many. For example, we partner with the American Institute for Cancer Research, annually hosting Nationwide Shred Cancer Events. To date, we have raised over \$212,000 to support cancer research, including through our shred events.

Goals

Through our purpose, vision and values, our goals are to make it easy for our clients to use our services, stay relevant, and empower people. We invest in technology to stay at the forefront of the latest developments in our industry and empower our people to provide the best services to customers. Without our people, this delivery of services to our customers is not possible. The Company has a diverse workforce, both at the customer-facing through to the most senior management positions as we believe the best service is delivered by a diverse and enabled team.

Outlook

Demand for Shredding Services Remains Robust

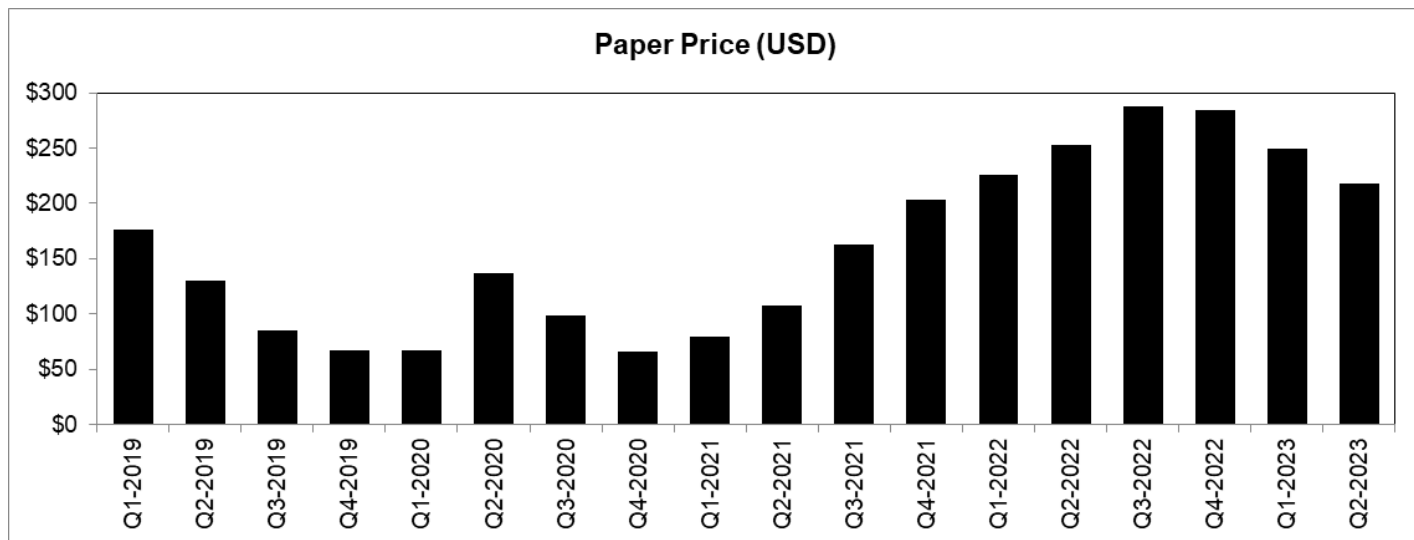

The Company continues to see an increase in marketing leads for both scheduled and unscheduled services. The Company's experienced sales force looks to close these leads at increasing conversion rates, contributing to top-line growth.

The Company is also continuing to see interest in its scanning services, as businesses look to digitize their physical paper documents securely and conveniently. Scanning services for larger customers, including for government customers, is in part dictated by timing and approval of customer budgets, which impacts when the Company performs the services. The Company will continue to leverage marketing efforts to tap into this market.

Recycling Revenue

The average paper price per ton in July 2023 was USD\$183.

The following chart illustrates the average paper price per ton, in USD, since the first quarter of 2019:

Future Growth Opportunities through Accretive Acquisitions

Development by way of acquisitions remains a key component of Redishred's long-term growth strategy. The Company is in discussions with acquisition targets and seeks acquisition opportunities in the United States.

Liquidity

The Company will continue to be proactive with its lending partners and will continue to manage its financial covenants. The Company plans to finance its acquisitions through a combination of cash on hand, contingent consideration payable in cash and debt and equity financings, if required.

Selected Quarterly Results

As shredding customers are typically serviced during business days, the quarterly system sales are impacted by the number of business days in any given quarter. This then impacts the Company's royalty fees and corporate revenues. The Company's unscheduled shredding in Q2 and Q3 typically tends to be stronger than Q1 and Q4 of every year. In Q1 the Company is impacted by weather challenges that disrupt shredding services. In Q4 the Company is impacted by fewer business days due to the Thanksgiving and Christmas holidays, with some impact from weather on shredding sales.
