

CAPABILITIES STATEMENT

OUR STRATEGIC PARTNERSHIP

PROSHRED® and **CB**Tech have joined forces to offer a diverse solutions portfolio with over 400 affiliates.

Our comprehensive destruction capabilities and deep expertise across multiple industries enable us to design tailored solutions that deliver upon our highest priorities while strengthening the community.

We cater to a wide range of destruction services, using our single source solution-based software and have custom programs to optimize client performance with a focus on analytics.

With our unique customer centric and customizable approach we're able to diversify, resulting in collaborative client relationships. This is how we've developed such a diverse affiliate database.

We are proud of our awards and certifications and stand by our service offering.

With combined capabilities for facilities management and information management, protecting sensitive and proprietary information starts with proactive measures designed to reduce exposures and ensure compliance.

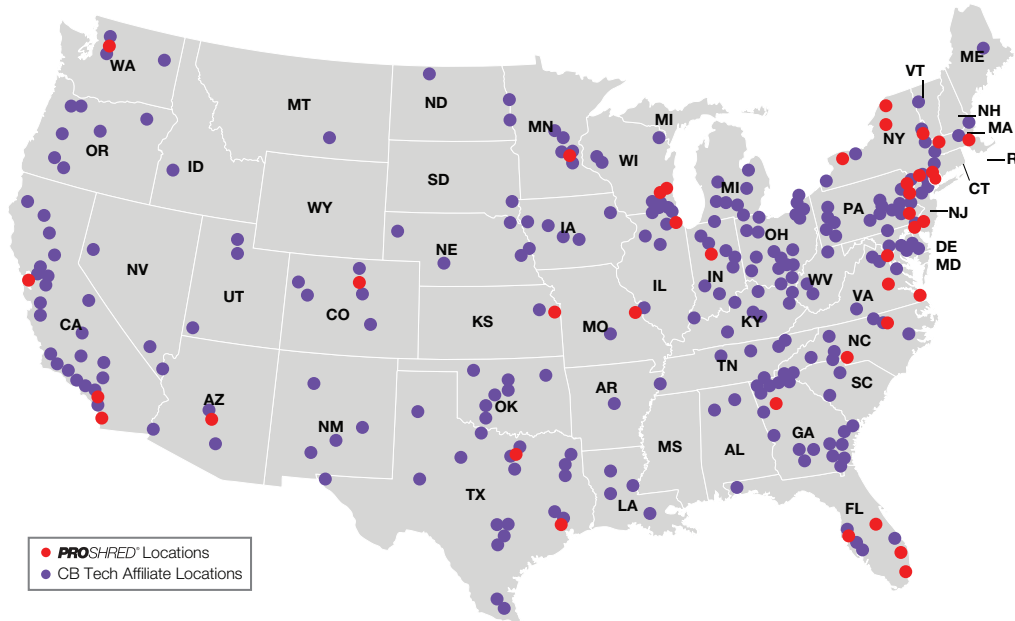

With more than 30 years of trusted mobile shredding experience and rigorous commitment to ISO 9001 and NAID AAA quality standards, **PROSHRED®** has

pioneered the most secure and efficient system for the shredding of confidential documents and the destruction of sensitive material.

CB Tech designed a three-pronged approach to eliminate the risks associated with waste management, waste recycling, and document destruction. Custody is controlled from collection and transportation, through to destruction.
