

Mobile Shredding Equipment

ENGINEERING A BETTER
PRODUCT FOR TODAY
AND BEYOND

Alpine Key Business Principals

- Instill a culture of continuous innovation, longevity and reliability
- Maximize vertical integration
- Utilize premium parts primarily from North American suppliers
- Build to the highest quality
- Simplified & efficient design = lower lifetime maintenance costs

Alpine shredder build quality

- One-piece solid shaft knife design
- High knife tip force reduces reversals
- Low speed/high torque = high throughput
- Proven durability & efficiency
- All steel alloy walls – “grenade proof”
- No compromises in materials

Hydraulics

- Premium hoses and components
- Components configured for easy service
- Pumps, motors over spec'd for durability
- On-the-shelf parts availability in most cases

Controls

- Full remote start/stop keyed alike
- OSHA compliant
- Simple on/off switches
- Color IP67 Weatherproof LCD monitors with two cameras
- Parts easily sourced/self repair

Shredder Body

- Aerodynamic front fascia
- Lower height for better fuel economy and drivability
- Galvanized undercarriage for corrosion resistance
- Huck bolt fasteners specifically designed for FRP panels
- Keith Walking floor offloading
- Only highest quality, most durable parts and designs

Operational Advantages

- Foolproof gravity feed hopper
- Pinch cart lift accepts all carts
- Large shredder drone area store extra carts
- Shred Load Detection ramps down to idle after 30 seconds of low shredder pressure

Safety Features

- OSHA compliant
- Full vision system with back-up camera standard
- Emergency Stops
- Entry Safety Interlocks
- High infeed hopper cage
- Safety Training including online Safety, Maintenance and Operations modules

Chassis

- Freightliner in 26,000 (non-cdl), 33,000 or 54,000 GVWR (optional Kenworth, Peterbilt or International)
- Engine and power right sized for application
- Cummins / Allison powertrain
- Fully featured cab amenities
- Customs options available

HDS 395 Hard Drive Shredder (optional)

- Shreds 14-16 hard drives per minute
- Optional small particle destruction knives for thumb drives, SSD, etc.
- Curbside control panel
- 100% Hydraulically driven for maximum power

Service

- Live support with industry experts
- Constantly expanding local service partners in every market there is a customer
- Designed and engineered for easy serviceability
- Service provider training available
- Focused to minimize downtime for our customers

Models

- **STAK 26**

26,000 GVWR, 6,000 lbs./hr. throughput, 8,500 lbs. payload

- **STAK 33**

33,000 GVWR, 7,500 lbs./hr. throughput, 12,750 lbs. payload

- **VMAX**

33,000 GVWR, 12,000 lbs./hr. throughput, 12,500 lbs. payload

Alpine Mobile Shredding Equipment is designed, engineered and built to work as hard as you do. Contact us to find out more.
